Reference form

Solicits to move the Government for the Surrender of 2 Cutchery hands in the Travancore & Cochin District

No. 1955
Dno: 857

DEPUTY COMMISSIONER'S HASSAN DISTRICT. OFFICE.

Dated Hassan 8th November 1885

From,

J. Ananda Row Esqr. B. A.
Deputy Commissioner,
Hassan District.

The Comptroller to the
Government of Mysore.

I have the honor to forward for your Consideration Copy of Docket Dno: 165 Dated 4th November 86 from the Treasury Officer, Hassan District.-

2. The Establishment of the District Treasury consists of 9 hands as prescribed in Dewan's Proceedings No. 136-45 Dated 29th March 1886. This strength was found

found insufficient, and in order to help a young Treasury, an accountant was lent from the District office, particularly as the loan was not inconvenient at a time when there was no very great pressure in the District office for accounts. But as the Treasury has been in working order and the demands on the District office Establishment are coming to be at their maximum with the approach of the Jamabandy season, the Treasury officer was requested to return the accountant lent. The Docket, copy of which is herewith forwarded, is the reply.

3. I beg that you may be kind enough to consider the

roundness

soundness or otherwise of the requisition made by the Treasury Officer. If sound he should recommend the extra hands he seeks. If unsound he should be told so and required to get on with work with the sanctioned establishment.

4. To my mind his requisition seems well founded the Establishment sanctioned for the Hasan District Treasury compares as follows with that sanctioned for the other minor Districts in the State viz, Kolar, Tumkur and Kadur

District	No. of Maidan and Malnad Taluks	No. of hands other than Treasurer, Shroff and Menial servants
Kolar	Maidan 9.	8 } As per Budget
Tumkur	— " — 8.	9 } As per Budget
Kadur	3½ Malnad 1½ Maidan.	8.
Hasan	2½ Malnad. 5/7 Maidan.	6.

5. Not being aware of the grounds upon which a smaller establishment has been ordered for Kaspan than for other districts, I feel somewhat at a disadvantage in submitting the needful. As well as I can judge the aggregate money value of the transactions should be the last guide. The number of transactions should it seems to me, be the first and foremost test. Inland Talukas do not entail as much work as Maidan Talukas. Maidan Talukas where the arrears of Revenue are not heavy and where the Revenue is regularly or easily paid, the work is not as heavy as in the Maidan Talukas of a different kind like Kaspan for instance. Where transactions are numerous owing

owing to large population and small land holdings, a propor-
tion of these is doubled by the items having to pass through
Deposit where sales of land are
numerous alike for arrears of
revenue (as in Hassan Taluk)
or on dumkhasti (as in Arsikere)
Applying these tests to the Hassan
District, and for instance to the
Kadur District, it seems to me
that the Hassan District Treasury
should, if at all be more strong-
ly manned than the Kadur "
District Treasury. In the Kadur
District also the collection work
and therefore accounts in five
Talukas are considerably simplified
by the practice of Sthanikadars
paying up the land revenue in
large amounts of several thousands
of Rupees at a time. Nevertheless

at

at present it is not that the establishment at Hapsan is equal to that at Chikki unfortunately. It is positively weaker so that difficult as it has been to get on with work the difficulty has increased where there has been absence from sickness & so and should hereafter increase with the increase of work incidential to the approaching Collection season and diminution of hands, with the withdrawal of the hand lent from the District office which latter must take place in the interests of District office work. In the past the Treasury office at Hapsan has not only found abundant work for the hand lent from the District office, but he has also found it necessary to impress with the

the account branch one of the two Collars in the Cash branch to prejudice of work in the latter which must increase in pro-portion to increased receipt of remittances in the Collection season.

6. A statement showing the number and amount of trans-actions in the month of July last (a month selected at random and one in which the transactions are about the least of all months in the year) prepared by the Treasury Officer is here annexed. If necessary similar figures may be called for and compared from other Districts. But the Consider-ations above submitted prospe one practical proof When the Radius District was visit now

is, before the Hapan District was abolished, its establishment was of the same strength as now. When for Treasury work it received an addition of the four Taluks of the Hapan Subdivision, the Deputy Commissioner found it necessary to apply for, and received sanction to the entertainment of two additional hands at a cost of 20 each per mensem. The comparison of the present sanctioned establishment of the new Hapan District with the sanctioned establishment for the Kadur District of 1885 stands as follows:—

	No. of Taluks	No. of hands in Treasury other than measurement &c. of annual establishment.
Kadur District of 1885	5½ Malnad 3½ Maidan 9.	10.
Hapan District of 1886	2 Malnad 5 Maidan 7.	6.

With nearly twice as many Maidan Talukas, the establishment is weaker as if work diminished with increase of Maidan Talukas whereas the truth is the reverse

7. If these considerations commend themselves to your judgment, I beg that you will be kind enough to have the needful application submitted for the Dewan's sanction for the entertainment of two hands one on Rs 20 and the other on Rs 10 or 15. This will obviate the necessity for a further application though if only one hand on Rs 20 be sanctioned, a trial can be made whether the Treasury Officer cannot get on with this limited addition to his Office which will still leave him weaker than

than other Distinct Treasuries.

8. Soliciting your early disposal of this reference.

I have the honor to be,
Sir,
Your most obedient servant.

T. Mandal Rao
Deputy Commissioner

General. No. 165 } 1886—8 }.
No.

Sir

With reference to your memo
of the 29th Ultimo requesting to send
back to the District office the ad-
ditional Accountant Thirio
malachar lent from the Distric
office, I beg to bring to your
notice that the present staff
of the Treasury Department
including the said additional
accountant is barely handy

sufficient, and the officials are overworked in disposing of the daily routine work and in submitting the various returns to the different offices punctually in time. This District has, I think, more Treasury work than its sister Districts viz: Chittaldroog, and Chickmagalur, having more Talukas added to it. Under these circumstances I respectfully beg that you will not only give the said accountant permanently to this office but also apply to the Comptroller for another hand, as an accountant to check Rozwadas as in other Districts is wanted.

I have &c

(Signed) V. Ranganathi Naidoo
Treasury officer
Hassan District

CONTROLLER'S OFFICE
14 .. 86
MYSORE.

To,

The Chief Secretary to the
Dewan of Mysore

Sir,

I have the honor to submit for the orders of the Dewan letter No. 1955/857 dated 8th November 1886 from the Deputy Commissioner Hassan submitting that the Treasury Establishment of his District is overworked and asking for 2 more hands. In the recent reorganization of this and the Chitaldroog Districts only 9 hands were sanctioned for the Treasury. After a careful examination, I am able to endorse the opinion of the Deputy Commissioner that the Establishment is insufficient to cope with the work of his District Treasury. A comparative Statement prepared by me to shew the amount of work done by the District Treasuries of Shemoga, Tumkur, Kolar, Kadur, Chitaldroog & Hassan is enclosed. It will be seen from it that the work of Hassan District is only less than that of the Shemoga Tumkoor Kolar Districts. It has got 7 Taluks viz 5 of Chuttra= =mugloor of which 5 are Maidan. The No= of items of Revenue and Judicial Deposits in the Hassan

District

sure test of the work in a Treasury as each Voucher
represents a transaction which has to be entered in
different registers and the No belonging to the
Assam District exceeds that of Kachar and
Chittagong by 200 & 300 respectively in 6 months.
The receipts and expenditure on account of Sheriff

Majesty's accounts and the No of pensioners are also
larger than in Kachar & Chittagong. I think
therefore that 2 additional hands may be sanctioned
for the Assam District. One hand on 15 Rs may
be reduced from the Establishment of the Kachar
District Treasury and added on to that of the
former and a fresh one on 15 or 20 Rs might be
sanctioned

District are very heavy and their adjustment always requires a great deal of care and attention. Its Muzrey expenditure is very large and involving as the Muzrey accounts do many items of small sums they must be a source of a great deal of confusion and correspondence. It has 10 Municipalities to 5 of Kadur and though the total amounts of Receipts and Expenditure are not larger than those of the latter District, the Accounts to be kept must be more numerous. The No of Vouchers is a sure test of the work in a Treasury as each Voucher represents a transaction which has to be entered in different Registers and the No belonging to the Hassan District exceeds that of Kadur and Chitaldroog by 200 & 300 respectively in 6 months. The Receipts and Expenditure on account of Her Majesty's Accounts and the No of pensioners are also larger than in Kadur & Chitaldroog. I think therefore that 2 additional hands may be sanctioned for the Hassan District. One hand on 15 Rs may be reduced from the Establishment of the Kadur District Treasury and added on to that of the former and a fresh one on 15 or 20 Rs might be

sanctioned

sanctioned besides. If the Government should feel any hesitation in sanctioning any extra expenditure I would recommend ~~that~~ the immediate transfer of the Munshi or Gumashta on Rs 15 from the Kadur to the Hassan District Treasury, the grant of an additional hand being deferred till the close of the Official year -

The Samabundy season has already commenced and collection has begun so that the Treasury work will soon grow heavier than it is now and as the Deputy Commissioner has been already put to much inconvenience, I beg early orders may be passed on this reference -

I have the honor to be,
Sir,
Your most Obedient Servant -

Abercrombie
Comptroller -
